EDUCATION

UIET Kanpur

B.Tech Computer Science and Engineering – Artificial Intelligence

June 2023 - present

CGPA - 9.56

WORK EXPERIENCE

AI/ML Intern

Jun - 2026 to July - 2026

- Developed an AI-powered Resume Parser using Python and NLP to extract skills, education, experience, and projects from PDF resumes.
- Implemented LLM-based information extraction and semantic matching to analyze candidate profiles and identify relevant job opportunities, improving job-match relevance by **75%**.
- Built an automated ML screening pipeline that reduced candidate screening time by **60%** through automated scoring, structured JSON generation, and job matching.

PROJECTS

Impact of Social Media On Mental Health

githubRepo

liveDemo

- Built a machine learning classification system to predict the impact of social media usage on students' mental health using behavioral, demographic, academic, and lifestyle data.
- Conducted EDA, data preprocessing, feature analysis, visualization, and model evaluation; benchmarked 7 classification algorithms and achieved 96.45% accuracy using Random Forest.
- Applied K-Means and DBSCAN clustering to uncover user behavior patterns and developed a Streamlit web application for interactive machine learning predictions.

AI Resume Chat Assistant

githubRepo

liveDemo

- Built a Generative AI-powered resume chatbot using Python, FastAPI, React.js, and Groq LLM API to answer recruiter questions based on candidate resume data.
- Developed a resume processing pipeline using PyPDF and Pydantic to extract and structure candidate information including skills, experience, education, projects, and certifications.
- Integrated the **LLM (openai/gpt-oss-120b)** through the Groq API and implemented prompt engineering techniques to generate accurate, context-grounded responses while minimizing hallucinations.
- Deployed the full-stack application with a cloud-hosted frontend and backend, enabling recruiters to interact with the candidate's resume through an AI-powered conversational interface.

TECHNICAL SKILLS :

Languages and Databases: C++ , Python , SQL

AI/ML: Machine Learning, Deep Learning, LLMs, RAG, Generative AI

Core CS: Data Structures, Algorithms, DBMS

Frameworks and Libraries: Streamlit, FastAPI, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn

ACHIEVEMENTS

Contests: CodeChef 2-star rating; 1800+ LeetCode rating

Questions: Solved 500+ DSA problems on LeetCode. *LeetCode*

CERTIFICATIONS

Data Science Mentorship Program

CampusX — Certificate

Agentic AI Certified Foundations Associate

Oracle — Certificate
