EDUCATION

UIET Kanpur

B.Tech Computer Science and Engineering – Artificial Intelligence

June 2023 - present

CGPA - 9.56

WORK EXPERIENCE

AI/ML Intern

Jun - 2026 to July - 2026

- Developed an AI-powered Resume Parser using Python to extract skills, education, experience, and projects from PDF resumes.
- Implemented NLP and LLM-based processing to analyze resumes and match candidate profiles with relevant job descriptions.
- Built an automated resume screening pipeline that generates candidate scores and structured JSON profiles for efficient job matching.

PROJECTS

Impact of Social Media On Mental Health (Team size: 3)

- Built a machine learning classification system to predict the impact of social media usage on students' mental health using behavioral, demographic, academic, and lifestyle data.
- Conducted EDA, data preprocessing, feature analysis, visualization, and model evaluation; benchmarked 7 classification algorithms and achieved 96.45% accuracy using Random Forest.
- Applied K-Means and DBSCAN clustering to uncover user behavior patterns and developed a Streamlit web application for interactive machine learning predictions.

JavaLearn (Final Year Project)

- JavaLearn is a desktop application based on "3 tier architecture" in which the E-Learning system is implemented.
- This Desktop application is created using Java Language. Swing Components are used for designing purpose as well as coding.
- HTML and CSS are also used in some places for better GUI Implementation. Java API's are used to reduce code complexity.
- MySQL server is used for Backend purpose, where all the data of JavaLearn application is being stored.

TECHNICAL SKILLS :

Languages and Databases: C++ , Python , SQL

AI/ML: Machine Learning, Deep Learning, LLMs, RAG, Generative AI

Core CS: Data Structures, Algorithms, DBMS

Frameworks and Libraries: Streamlit, FastAPI, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn

ACHIEVEMENTS

Contests: 2star CodeChef rating ,1800+ LeetCode rating with strong problem-solving skills.

Questions: Nearly 500+ questions solved.

CERTIFICATIONS

Data Science Mentorship Program

Agentic AI Certified Foundations Associate

CampusX — Certificate

Oracle — Certificate
